

Gifted Differentiation With Accessibility Planner

Use fictional examples. Leave out diagnoses, medical information, names, passwords and contact details.

Learning goal: Pair depth, complexity and choice with access supports.

A learner has mastered routine content but needs reading and motor access. Choose a deeper question, accessible sources and equal-status response formats. Use a fictional or de-identified example here; the learner controls what to share.

1. Use a fictional example or discuss the situation without identifying a child.
2. Complete each planning section with the learner's choices at the center.
3. Select one feasible change, who will provide it and when you will check it.
4. Keep any completed paper privately; do not use it to diagnose, rank or label a learner.

Grades 3–5 support: Use the prompts and examples, or explain your ideas in your own way. Ask for words, a scribe or one direction at a time.

Understand the goal and access

Choose a deeper question, accessible sources and equal-status response formats. Separate the thinking goal from an access barrier.

Meaningful learning goal or interest

Barrier or preference to check with the learner

Gifted Differentiation With Accessibility Planner

Choose an action together

Invite the learner's response in their preferred communication mode. Choose one feasible change and an adult responsibility.

Learner's choice or question

Support action, responsible adult and timing

Optional deeper thinking · Grades 6–8

Compare two support choices for the same intellectually demanding goal and identify how the learner's preferences shape the decision.

Gifted Differentiation With Accessibility Planner

Review and keep it respectful

Do not substitute busywork or remove advanced instruction because of disability-related support needs. Decide how you will check the support with the learner, not just compliance or speed.

Evidence of access or participation to look for

Review question and next adjustment

My next step

What will I try, and who can support it? Write, draw, dictate, sign or use AAC.

Gifted Differentiation With Accessibility Planner

Accessibility & alternative responses

Use selectable text, clear headings, AAC/partner-assisted participation, read-aloud or large print as chosen. Keep completed plans private; no diagnosis or medical details are needed.

Teacher facilitation

Choose a deeper question, accessible sources and equal-status response formats. Do not substitute busywork or remove advanced instruction because of disability-related support needs.

Specialist formats

These printouts are not Braille. Embossed Braille and specialist tactile materials need qualified, technically validated production. The accessible digital version supplies structured text, not a specialist-format substitute.
