

Listening Access: My Strengths & Choices

Use fictional examples. Leave out diagnoses, medical information, names, passwords and contact details.

Learning goal: Receive complete directions in a usable mode while engaging in advanced reasoning.

Auditory processing differences do not erase interests or deep thinking. People have different access needs, even within the same label. Use this fictional situation or choose your own without private details.

1. Choose a real or made-up learning situation. Leave out names, diagnoses and private details.
2. Explore the three activities. Choose supports that fit you; skip any that do not.
3. Write, type, draw, point, sign, use AAC or ask someone to scribe your own ideas.
4. Choose one next step and an adult who can help make it possible.

Grades 3–5 support: Use the prompts and examples, or explain your ideas in your own way. Ask for words, a scribe or one direction at a time.

Start with interesting thinking

Evaluate two invention ideas after receiving a three-step instruction in a noisy classroom.

A question I want to explore

A strength or interest I bring

Listening Access: My Strengths & Choices

Identify the barrier

Consider this possible barrier: Competing sounds or spoken directions that disappear. It may or may not fit you. Describe access, not a diagnosis.

Optional choices · choose any, none or your own —

☐ Written directions ☐ One instruction at a time ☐ Quiet location ☐ Repeat or rephrase and confirm

A barrier in the task or environment

A support I would like to try

Optional deeper thinking · Grades 6–8

Compare two support arrangements for the same demanding goal. Explain how you would check access without using speed or appearance as the only measure.

Listening Access: My Strengths & Choices

Ask for both

Make a request for meaningful challenge and usable access together.

Challenge I want to keep

Support and adult action I request

My next step

What will I try, and who can support it? Write, draw, dictate, sign or use AAC.

Listening Access: My Strengths & Choices

Accessibility & alternative responses

Choose speech, sign, AAC, typing, drawing, tactile response or a trusted scribe. K–2: choose one option with adult support. Skip any choice that does not fit.

Teacher facilitation

Give written/visual or accessible text directions alongside speech. Check understanding without assuming hearing technology or repetition alone solves access.

Family-use suggestion

Invite the learner to choose what to share. Try one support together, ask what helped, and change the plan with their permission. Do not turn this sheet into a test or require private information.

Specialist formats

These printouts are not Braille. Embossed Braille and specialist tactile materials need qualified, technically validated production. The accessible digital version supplies structured text, not a specialist-format substitute.
