

Understanding My Child's Strengths

Use fictional examples. Leave out diagnoses, medical information, names, passwords and contact details.

Learning goal: Notice strengths and interests without minimizing support needs.

A child explains complex ideas orally but finds reading homework effortful. Invite one interest, one example of thinking and one support preference. Use a fictional or de-identified example here; the learner controls what to share.

1. Use a fictional example or discuss the situation without identifying a child.
2. Complete each planning section with the learner's choices at the center.
3. Select one feasible change, who will provide it and when you will check it.
4. Keep any completed paper privately; do not use it to diagnose, rank or label a learner.

Grades 3–5 support: Use the prompts and examples, or explain your ideas in your own way. Ask for words, a scribe or one direction at a time.

Understand the goal and access

Invite one interest, one example of thinking and one support preference. Separate the thinking goal from an access barrier.

Meaningful learning goal or interest

Barrier or preference to check with the learner

Understanding My Child's Strengths

Choose an action together

Invite the learner's response in their preferred communication mode. Choose one feasible change and an adult responsibility.

Learner's choice or question

Support action, responsible adult and timing

Optional deeper thinking · Grades 6–8

Compare two support choices for the same intellectually demanding goal and identify how the learner's preferences shape the decision.

Understanding My Child's Strengths

Review and keep it respectful

Do not use strengths to dismiss difficulty or compare children publicly. Decide how you will check the support with the learner, not just compliance or speed.

Evidence of access or participation to look for

Review question and next adjustment

My next step

What will I try, and who can support it? Write, draw, dictate, sign or use AAC.

Understanding My Child's Strengths

Accessibility & alternative responses

Use selectable text, clear headings, AAC/partner-assisted participation, read-aloud or large print as chosen. Keep completed plans private; no diagnosis or medical details are needed.

Teacher facilitation

Invite one interest, one example of thinking and one support preference. Do not use strengths to dismiss difficulty or compare children publicly.

Family-use suggestion

Invite one interest, one example of thinking and one support preference. Do not use strengths to dismiss difficulty or compare children publicly.

Specialist formats

These printouts are not Braille. Embossed Braille and specialist tactile materials need qualified, technically validated production. The accessible digital version supplies structured text, not a specialist-format substitute.
