

My Advanced Learning Goal Tracker

Choose real or fictional examples. Skip private details; never include passwords, medical information or contact details.

Learning goal: Set a specific advanced learning goal and track progress with evidence.

A good goal is specific, challenging and possible. Track small steps and the evidence that shows growth. Check in with your teacher on your follow-up dates.

Your steps

1. Write one specific advanced goal.
2. Break it into steps.
3. Track evidence each week.
4. Reflect at the end.

1. My goal

Make it specific.

My advanced learning goal	Why this goal matters to me
What success will look like	Follow-up date with my teacher

2. Weekly tracker

Record what you did and your evidence.

Week	What I did	Evidence of progress
Week 1		
Week 2		
Week 3		
Week 4		

My Advanced Learning Goal Tracker · Practice & next steps

Continue your ideas from page 1. Write, draw, use symbols or ask someone to scribe. Share only what you choose.

3. Goal reflection

Complete at the end.

Did I meet my goal? Evidence:	What helped most
What got in the way and how I handled it	My next goal

My next step

One small step I will take tomorrow is...

Optional stretch · Grades 6–8

Connect your goal to a real-world expert. What would they track?

Optional teacher / parent follow-up: Goals stay student-owned; adults help keep them realistic and connected to standards.
